# Challenge your life with 4Cs

Methodology e-book

Four Cs skills - Communication,
Collaboration, Creativity, Critical thinking
are important skills for life and successful
work careers.
Within the project we focused on integrating them
into teaching and learning process.

Co-funded by the
Erasmus+ Programme
of the European Union

During the project period we collected materials and ideas to support the development of 21st centuries skill.

We specified key areas teachers should focus on in their classes.

The areas helped us to design class activities and made us think about pupils' competencies.

Communication

KEY AREAS

active listening

nonverbal language

comprehensible presentation

digital media

conveying & sharing ideas

emotional awareness

Examples of classroom tips
